A commercial kitchen facility is available for local food processors to refine existing products or create new ones. The ice plant operations serve Indigenous and commercial fishers, recreational fishers, seafood processors, food distributors, and the general public. The facility also features a cold storage that has been a "game changer" for the community.

# PATH short-sea ship to Seattle and Vancouver

Tokyo – LA via Port Alberni – 15 hours deviation

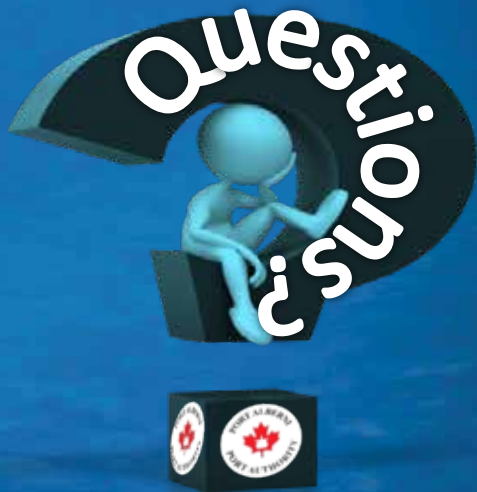

PNW and PSW  
could be  
combined as  
one.

# Traffic Problem?

Just add  
water.

And forge a  
new **PATH**way.
