STRATEGIC PORT CONNECTIVITY

Connectivity with the West Coast of the US

Connectivity with the East Coast of the US and Europe

Connectivity with Asia and Central America

Connectivity with Central America

SHORT-SEA SHIPPING WITH THE U.S.

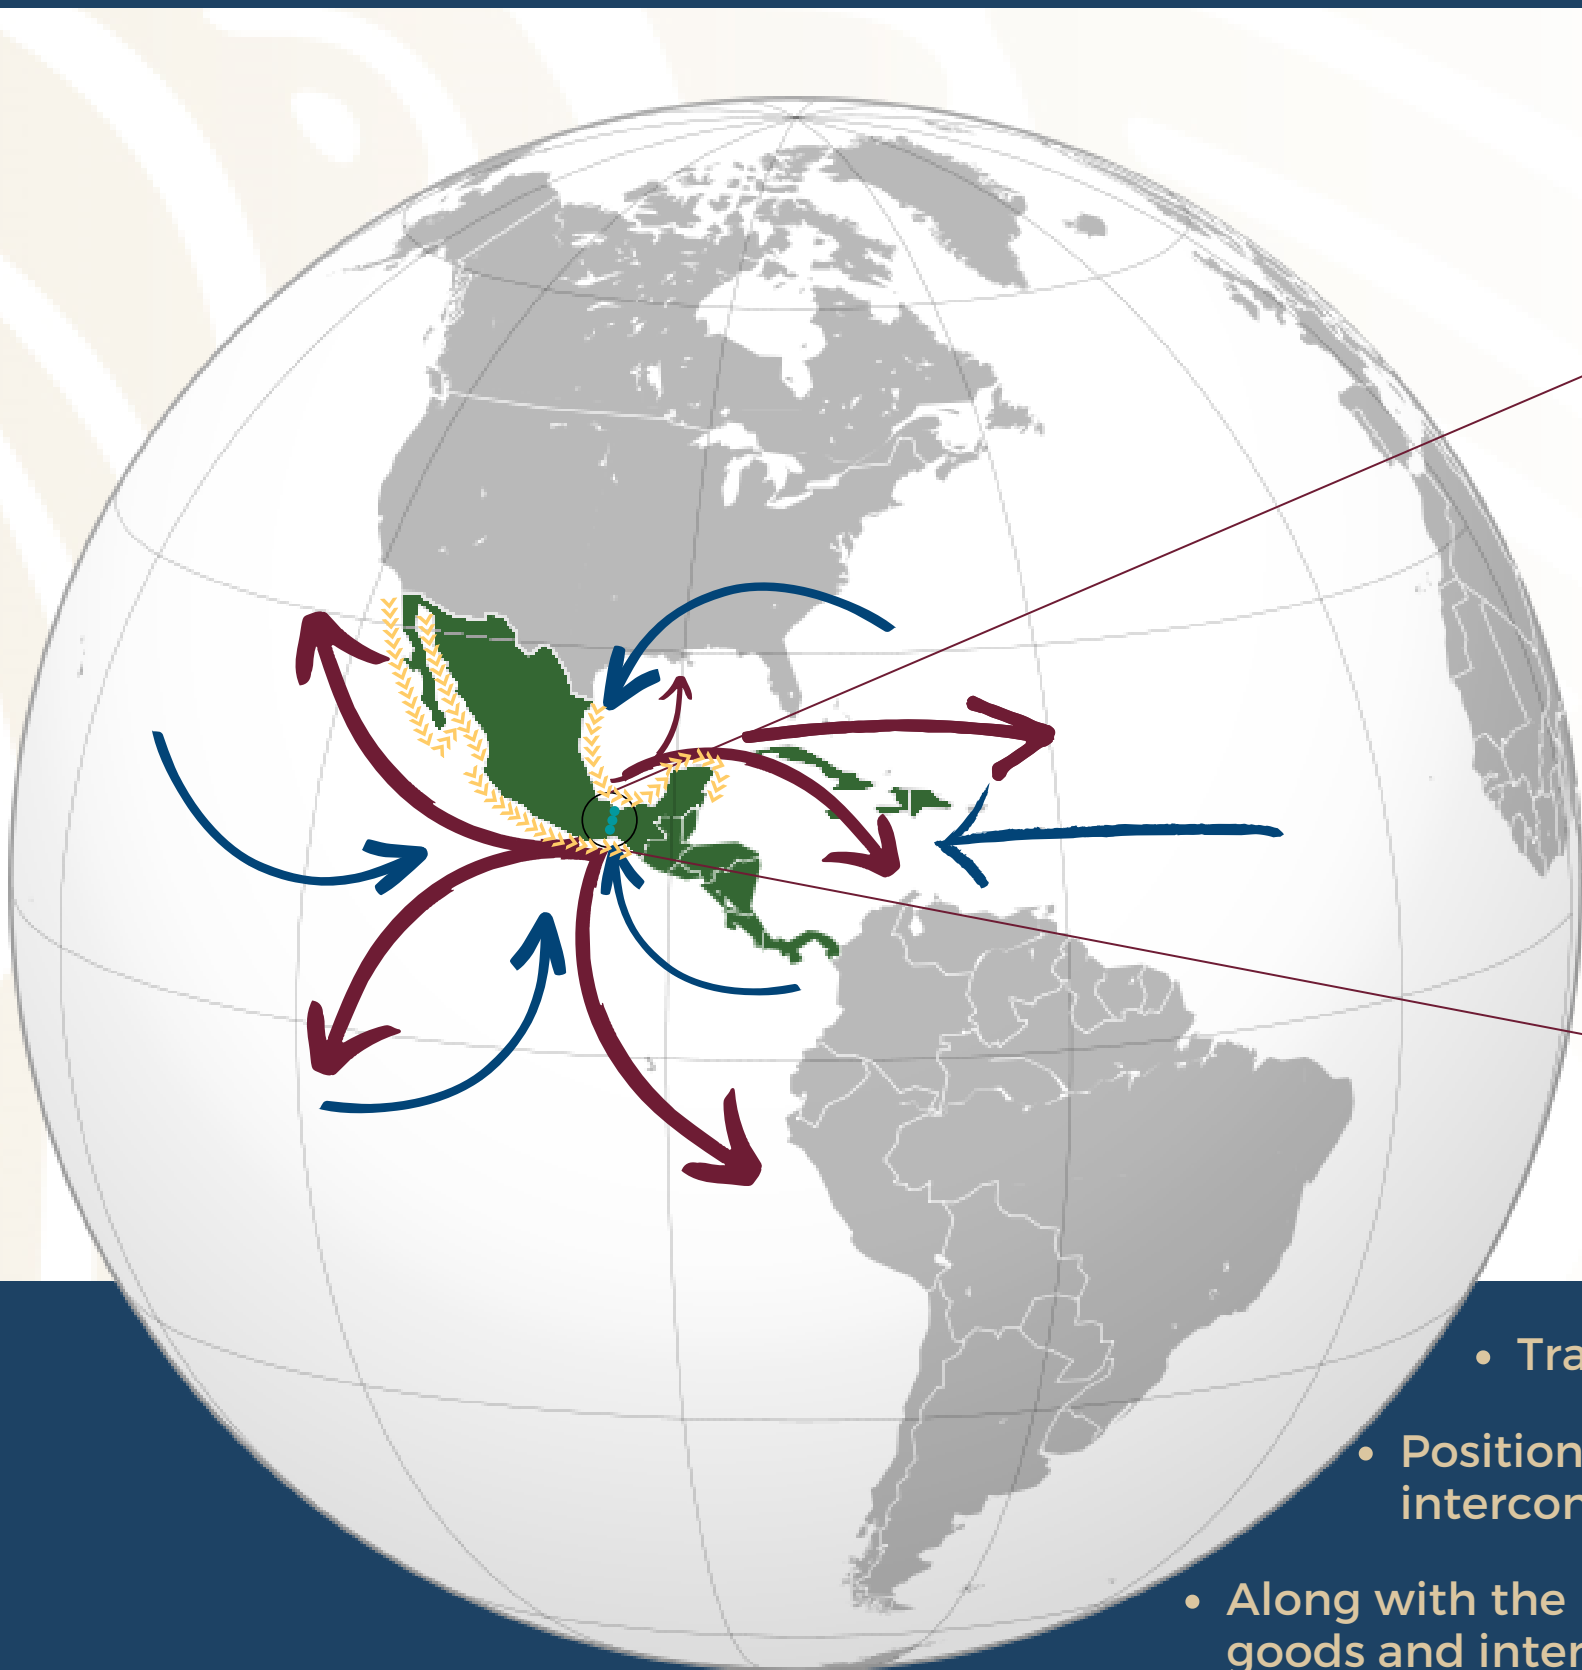

1. Upcoming passenger ferry between Ensenada & San Diego.

2. Analysis of cargo movement between Florida and Mexican ports, with an additional exploration of potential involvement of ports in Louisiana.

COASTAL & SHORT-SEA SHIPPING

AS A TRIGGER PROJECT FOR THE ISTHMUS OF TEHUANTEPEC INTEROCEANIC CORRIDOR

Access to the fastest-growing market in the Americas.

Reduction of intermodal costs and transit times.

Integration into the value chain in North America.

Development of the Mexican South-Southeast region.

- Transportation alternative to position products from Mexican companies in international markets.
- Positioning of the Mexican South-Southeast as a hub of articulated mobility, linking and interconnecting different modes of transportation
- Along with the Development Hubs, it will create opportunities for coastal shipping by increasing the demand for goods and intermediate inputs.

THANK YOU!

Captain Ana Laura López Bautista

General Coordinator for Ports and Merchant Marine
